PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years of experience in PHP and Laravel, specialized in scalable SaaS system architecture. Proven track record of rapid career growth — 3 promotions in 2 years at Fundatec — leading complex technical solutions in high-demand environments. Passionate about clean code, best practices, and delivering real business value.

PROFESSIONAL EXPERIENCE

Fundatec | 2023 – Present

Software Developer — Mid-level

- Designed and implemented critical modules in a multi-tenant SaaS platform using PHP 8.3 and Laravel 9.x, reducing API response time by ~35%.
- Led the migration of legacy systems from PHP 5.2 to PHP 8.3 with no downtime, ensuring backward compatibility and improved maintainability.
- Implemented distributed caching with Redis and optimized complex MySQL queries, cutting report generation time by 40%.
- Served as the team's technical reference for code reviews, promoting quality standards and mentoring junior developers.

Zero62 | 2022 – 2023

Software Developer — Junior → Mid-level

- Developed and maintained multiple outsourcing projects for national clients using Laravel, PHP, and PostgreSQL.
- Participated in building microservices with Redis integration, improving application scalability and resilience.
- Worked within Agile teams (Scrum/Kanban) in continuous delivery cycles with CI/CD, ensuring stable and traceable deployments.
- Handled relational (MySQL, PostgreSQL) and NoSQL (MongoDB, Redis) databases according to each SaaS project's requirements.
